November 8, 2018

Dear Pastor and Church,

“ I am a companion of all them that fear thee, and of them that keep thy precepts.” Psalm 119:63

How unlike the ecumenical movement of today which tells us we should be a companion of all who are religious, no matter their doctrinal stand on any Biblical issue. I have recently preached through II John and have just started III John. John had no greater joy than to know people were walking in **truth**. Those are the kind of people I want to spend time with also.

Please be in prayer for three young ladies. Tahlia has been growing in the LORD and continues to be in every service she can be as well as going through the ABC's of Christian Growth. She has several health problems due to a severe injury a few years ago which, among other things, extensively damaged her back. She had an operation yesterday to have three screws removed from her spine. This should help ease some of the pain she is in. Tahalia (similar name, but different person) made a profession of faith at Family Camp and came to a couple of services but has since stopped coming. Rebekah and Sarah keep in contact with her each week and we hope to see her back in services. Cody called on the LORD and is faithful in Sunday morning services. She and her parents (who are not saved) are leaving for a holiday in the United States. Please pray for her safety.

We were glad to have the Young family join two weeks ago. Bro. Corey, his wife Ashlee and their young daughter Harper moved into our area a few months ago and have transferred their membership from Bible Baptist Church of Mount Helena. They have been a real blessing in the short time we have known them.

Sadly, the Troy family have not been in services in a few months now. Both Mark and Kitty made professions of faith and had gotten very faithful in services. Then Sister Kitty's diabetes took a turn for the worse, and we have not seen them in services since. We pray for her health, and for them to be back in church.

The Sunday afternoon services in Pinjarra continue. We plan on making an extra special thrust there in the month of November. Also, please keep Sister Pauline in prayer as her health is not good.

With all the health needs (and I haven't written about ALL of them), won't it be wonderful to be in heaven worshipping our Almighty God for all eternity in a place where we will never grow old and never be sick!!!!!!

We want to again thank each of you for your support and prayers for the work here in Australia.
